## September 2017

Jesus said in Luke 19:10 *“For the Son of man is come to seek and to save that which was lost.”* He is still seeking and saving souls today.

We rejoice in God’s blessings during our recent trip to Mexico. I had the privilege to preach nine times in eight days while in Mexico. The first conference was in Leon, a city of about one million people. We were with missionary Sam Eastep and his family. This was a new church less than a year old. We were encouraged by the families that have been saved and dedicated to building a church there in Leon. There were many decisions during the conference over the Baptist Distinctives and their application in our Christian Life. One family decided to be Scripturally baptized and many others made decisions for the Lord. Pray for Marta, an unsaved lady who attended every service except one. She heard the gospel and needs to trust Christ. Brother Eastep said two young people trusted Christ the week after the conference. Praise the Lord!

Sunday afternoon we drove to Aguascalientes for the second conference in the Truth Baptist Church. It was great to be in this church for a second time, to see the members being faithful and to see new believers had been added to the church. Again God blessed with many decisions for the Lord, Pray for this church as they reach out into their community and to new areas with the Gospel.

On Wednesday evening, the night before we left, I was able to preach one message in the Trinity Baptist Church with Pastor Edgar. We worked in this church for a couple of years before we left Mexico in 2001. The church is in the process of building their own building on property that they bought last year. After renting a store front building for about 20 years, the Lord gave them the opportunity to buy land for their church. It is exciting to see these believers trust the Lord for His provisions for the land and building process. Again the Lord blessed His Word with many decisions during the service.

One new family that has been attending for a month or so was there. Juan trusted Christ after the service. His wife had been saved a couple of weeks before. It was good to see his joy after receiving Christ.

Even though it was a busy eight days, we were encouraged to see what God is still doing in Mexico. The number of Baptist churches is growing and most are being pastored by Mexicans. Souls are still coming to the Savior as He is still seeking them.

We were also able to fellowship with some missionaries that we had not seen in many years that are faithfully working in other areas of Mexico. To hear how God has used them to build churches and see souls saved was a great blessing.

Also this month I was able to preach in churches in Illinois and Arkansas. We thank the Lord for these opportunities and the decisions made during the preaching of God’s Word.

The work in the Home Office continues on. Our new website is up and running. If you have not seen the new site, please be sure to visit it at [www.fbwwm.org](http://www.fbwwm.org)

We thank you who prayed for our trip to Mexico. Health wise, we did not have problems other than being tired. Leslie did very well with no issues concerning her liver. She continues to do well.

Please pray for two meetings that we have in North Carolina in October and November that God will use us to share the burden of the need of more missionaries around the world.

Thank you again for your faithful prayers. It was evident that God answered your prayers by working in the hearts of those that heard the Word. Thank you so much for your gifts and support as they are so necessary for us to continue in the work of missions. We pray that God will use you to draw more souls to the Savior who is seeking them and willing to save them.

In Christ,  
*Keith & Leslie*
